

1898-1905 Pink Satin Ribbon Corset

Rochester Museum & Science Center MTH 5133 - 45.241.2

DOES NOT INCLUDE SEAM ALLOWANCE

Corset made from three panels (per side) attached by 2 1/8" wide double-faced satin ribbons

All panels and pieces made from pink silk satin ribbon

Grain follows grain of ribbon

CF 1/2" steel busk of 5 posts and clasps.

CF busk channel made from one (1) external layer of pink silk satin ribbon, with internal layer of cotton herringbone fabric. Tops and bottoms of busk channels are turned in, then hand-stitched closed.

CF busk panels (right and left) have internal facings of mohair whipped down to cotton herringbone.

Side and back panels of two layers of silk satin ribbon, with internal layer of cotton herringbone fabric.

Ten (10) metal grommets on either side of CB back, criss-cross lacing. 1/4" external diameter, 3/16" internal diameter.

3/8" balene strips at side and CB panels.

Two garter straps attached at front panels. Garters have elastic band encased by 3/4" strip of pink satin ribbon down back of each strap. Bottom and top edges have narrow turn-and-turn hem, machined down.

Metal clips attached at bottom with cotton tape in pale tan.

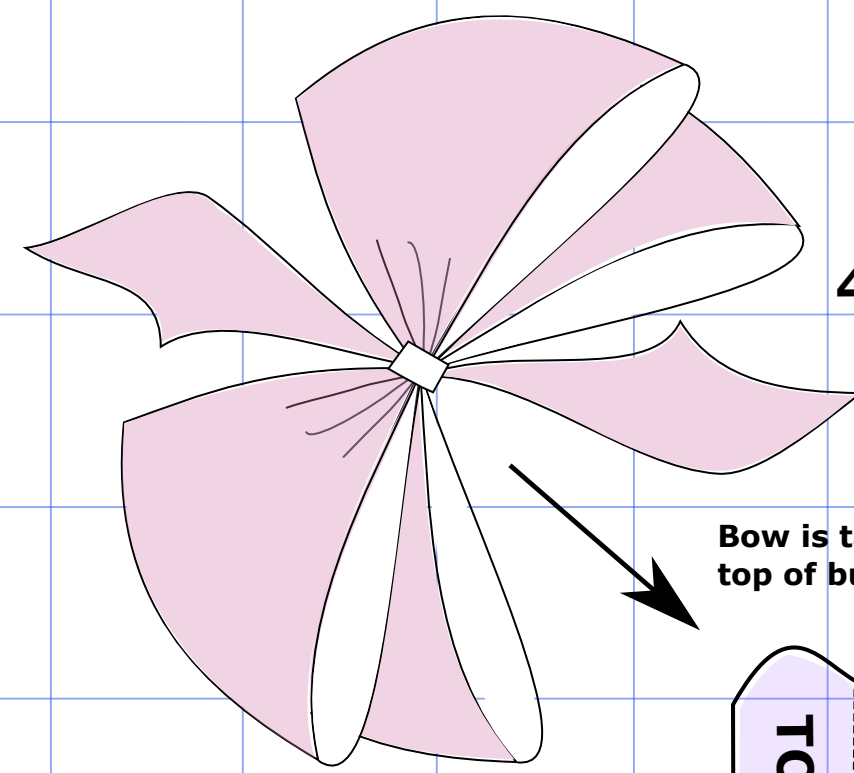

4-loops bows made from 1 5/8" wide pink silk satin ribbon. Tacked on by hand.

Machine-stitching in matching pink colorway.

UNDER BUST - 20 1/2"

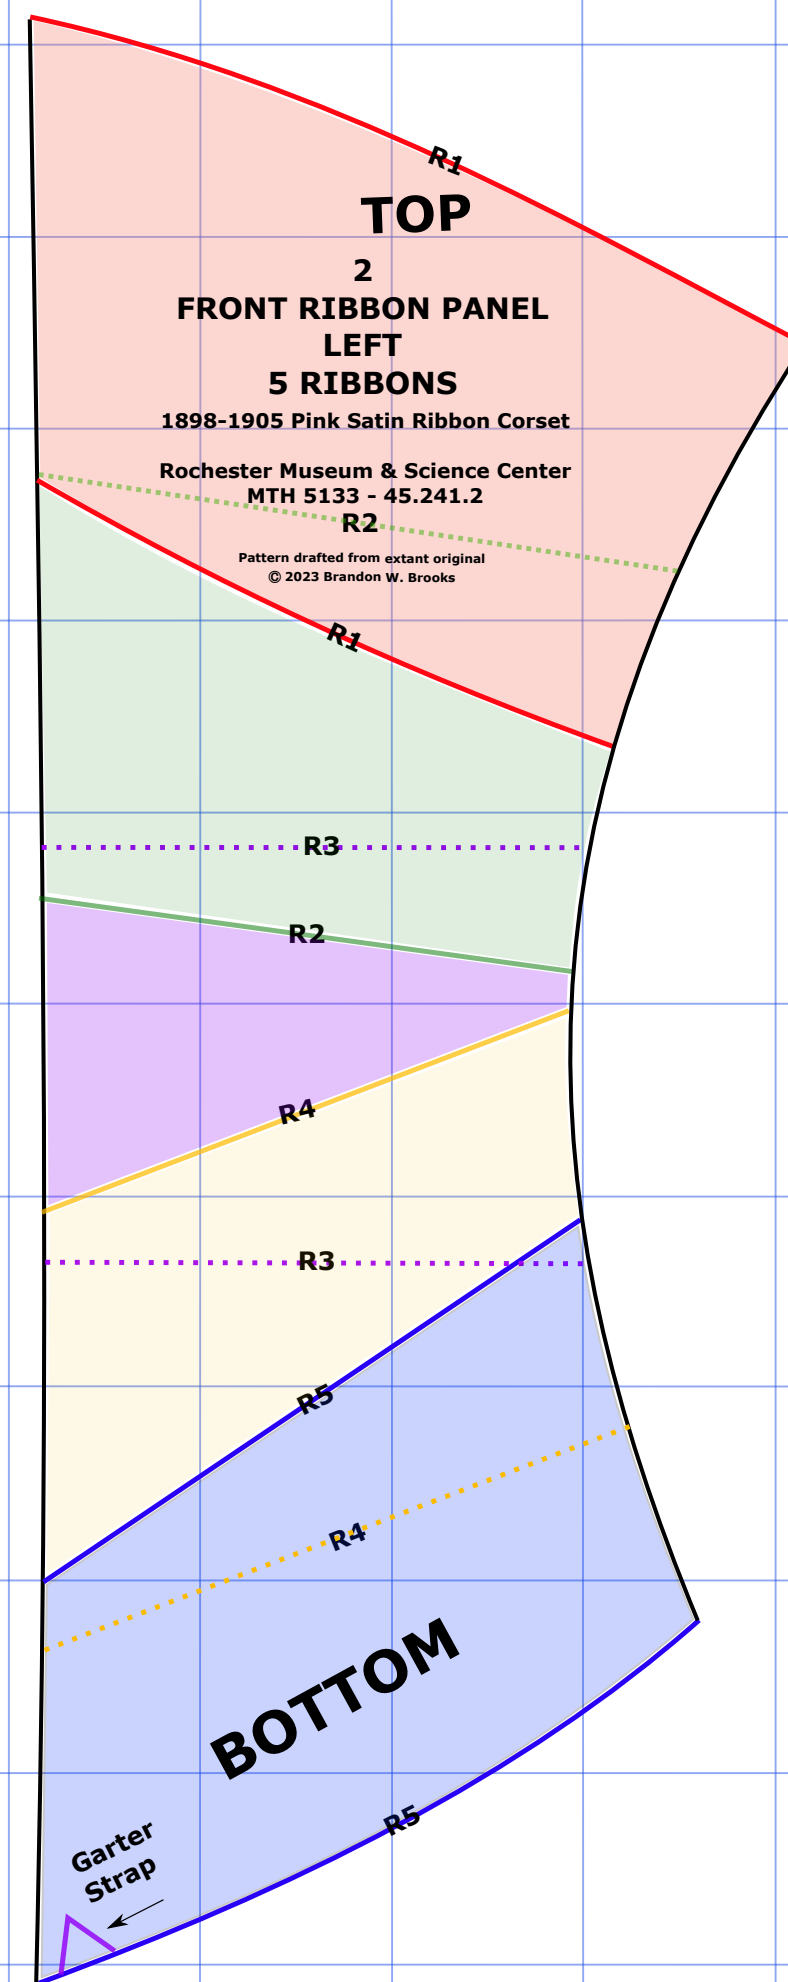

WAIST - 19"

HIGH HIP - 27"

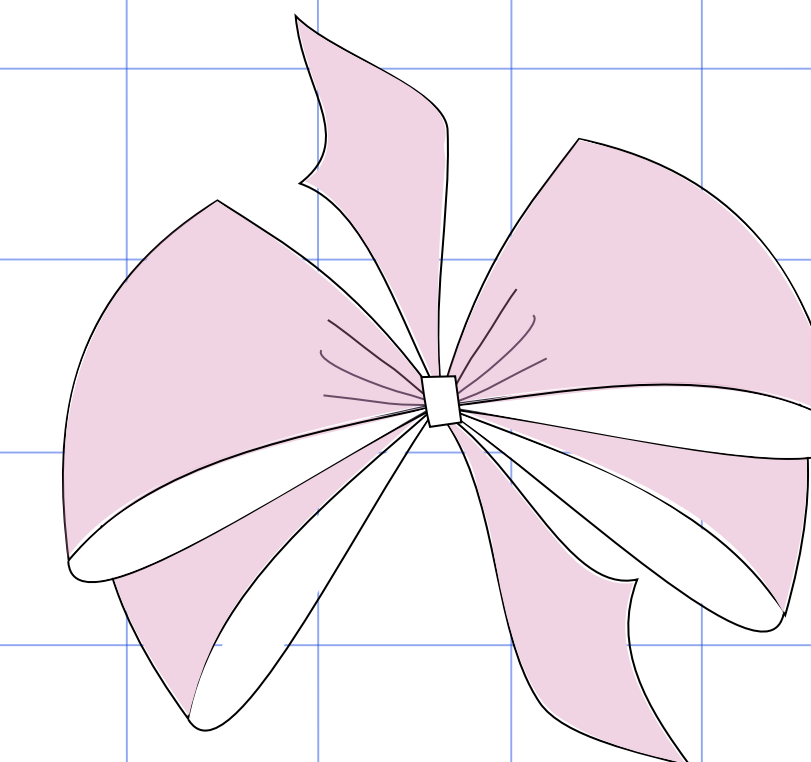

4-LOOP RIBBON BOW
